Dear Miss Robay -

I can not tell you how happy I was to get your letter of encouragement. I was afraid that you were upset because I have taken so long on your films. I have for you now six three-dimensional films lasting between one and three minutes each. I showed four of those at the art museum Friday (but not the best two, which are for you) and although these films are only the beginnings of what I hope to make next, I got many enthusiastic comments. Even these first experiments will make two-dimensional films made from now on seem pointless.

I have sold just about everything in order to finish these films but I hope to come and show them to you within three weeks.

Also I will bring your two-dimensional color film I am finishing although it seems restricted after the three-dimensional ones.

I know you and your friends will be successfull in everything you do.

Best wishes,

Harry Smith
